

## Commodity Map Cassava, *Manihot* spp.

### Acerage

\*This is a relative risk scale depicting the pest organisms host acreage intensity by county. It is possible to directly compare values between maps of the same type (e.g. Host to Host, Risk to Risk, and NAPPFAST to NAPPFAST).

The U.S. Department of Agriculture's Animal and Plant Health Inspection Service collected the data displayed for internal Agency purposes only. These data may be used by others; however, they must be used for their original intended purposes.
